Magnificent Tudor, completely renovated inside and out, in the desirable Wyoming section of South Orange, has it all - impeccable craftsmanship, premium finishes, designer fixtures, abundant space, and a prime location. Situated on one of the town's most beloved streets, this extraordinary home is a town gem, and a stone's throw away from first class schools, a vibrant downtown, direct train line to NYC, and Orange Lawn Tennis Club.

Built in 1932 and meticulously renovated in 2019, this 6 bedroom, 5 full, 1 half bath stunner is a true labor of love - with four finished levels on a lush, .35 acre private lot. Every detail has been thoughtfully considered to create a modern aesthetic while maintaining the home's original, timeless beauty.

The jewel-box of a kitchen is a designer's dream with sleek marble countertops and double waterfall island. Waypoint white shaker cabinets have slow close drawers, while other design features like glass front cabinetry, a pot filler, walk-in pantry, wine fridge, and tile floor with NuHeat heat trace, reflect the owners' attention to detail. High-end appliances include a Sub Zero 48" side by side refrigerator, Wolf 6 burner range with custom hood, Bosch dishwasher and microwave drawer - sure to wow any discerning home chef.

The generously-sized living room features a coffered ceiling and completely reconstructed wood-burning fireplace, reminiscent of the home's early grandeur.

Also on this level, a formal dining room with original, custom wood paneling, a tranquil sunroom with sliding glass doors, a grand staircase in both the front and rear of the home, a charming powder room, and den and mudroom, both with custom built-ins.

Upstairs, the sumptuous primary bedroom features an oversized walk-in closet with custom built-ins and luxurious ensuite bath with dual sinks, quartz countertops, champagne bronze Delta hardware, vanity area, toilet room, and plentiful storage. This spa-like space also features a large walk-in shower with statement black grid door. Dual shower heads and a large seating bench rival any upscale spa and offer the ultimate in indulgence. The second bedroom features an additional ensuite bath, while this floor's third & fourth bedrooms feature expansive closets and a shared bathroom.

The third floor features two additional bedrooms, a full bath, a private laundry room, and abundant storage space.

The basement adds even more living space with every amenity imaginable! A gym with floor to ceiling mirrors and rubber flooring, full bath, private infrared sauna room, art room with slop sink, theater room with 100” projector, kids playroom, workshop, and utility room make this space completely family-friendly, offering style and functionality. One of the most unique features of this home is the converted 3rd garage bay - completely transformed into a breathtaking space with a private entrance - ideal for a home office or rec space.
